

# Bunker Hill Mining and Metallurgical Complex Superfund Site Paved Roadway Surface Remediation Project Proposal (ref 7.1.1)

Application Date:

Local Highway Jurisdiction Name:

Address:

Contact Person:  Telephone Number:

Contact E-Mail:

1) Project Name:

2) Project Description; describe road segment or segments, beginning and end intersections, total length, and reference #'s from roadway surface remediation strategy:

- 3) Type of work to be performed:
- Pavement rehabilitation (i.e., grinding, placement, weak sub grade improvements)
  - Deferred maintenance (i.e., overlays, seal coats)

4) Narrative of work to be performed:

5) List road segment identification numbers from Appendix B roadway surface remediation strategy and type of work:

Segment #	Description of work

6) Total Funding Request (Use attached Engineer's Opinion of Probable Cost):

7) Dates that funding is required to initiate and complete the project (Please provide a complete project schedule):

8) Maintenance strategy for the completed project:

9) Description of other work that will occur during the project that is not being funded by the Paved Roadway Remediation Program:

10) Total Funding Request (Use attached worksheet):

11) Commitment of resources: The local road jurisdiction signing this Paved Road Surface Remediation Project Proposal (Proposal) agrees to the provisions of the **Roadway Surface Remediation Strategy for the Bunker Hill Mining Metallurgical Complex Superfund Site** (Strategy) included by reference. Upon completion and acceptance of the Project by the Roads Board, the local road jurisdiction holding jurisdiction and/or ownership of the remediated road segments in the Project assumes responsibility for operation and maintenance funding and work for the Project. Operation and maintenance work will be performed in accordance with the Institutional Controls Program for the Site.

12) Future project planning: The local road jurisdiction is requested to provide any additional planning information about how the requested project fits into the jurisdiction's overall plan for spending their entire program allocation and the anticipated type and timing for additional project proposals. This information is not mandatory and is not a prerequisite for funding the current project proposal but is needed by EPA and IDEQ to plan for annual allocation of funds to the Paved Roadway Surface Remediation Program in their overall funding allocation process.

Nothing in this Proposal or the Strategy shall be construed as obligating the United States or the State of Idaho their officers, agents, or employees, to expend any funds in excess of settlement funds available or appropriations authorized by law.

Each party to this Proposal reserves all rights, powers, and remedies now or hereafter existing at law or in equity, or by statute or otherwise, and nothing in this Proposal waives or forecloses the exercise of any such rights, powers, or remedies.

Approval of this Proposal will be in accordance with Section 7 of the Strategy.
